INDEPENDENT AUDITORS' REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

TO THE SHAREHOLDERS' OF THE COMPANY FOR COOPERATIVE INSURANCE (A SAUDI JOINT STOCK COMPANY)

INTRODUCTION

We have reviewed the accompanying interim condensed consolidated statement of financial position of The Company for Cooperative Insurance ("the Company") and its subsidiaries ("the Group") as at March 31, 2025, the interim condensed consolidated statement of income, interim condensed consolidated statement of comprehensive income, interim condensed consolidated statement of changes in equity and interim condensed consolidated statement of cash flows for the three months period then ended, and notes to the interim condensed consolidated financial statements (collectively referred to as the "interim condensed consolidated financial statements"). Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with IAS 34, 'Interim Financial Reporting' that is endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

SCOPE OF REVIEW

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" that is endorsed in the Kingdom of Saudi Arabia. A review of interim condensed financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements as at and for the period ended March 31, 2025 of The Company for Cooperative Insurance and its subsidiaries are not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting' that is endorsed in the Kingdom of Saudi Arabia.

THE COMPANY FOR COOPERATIVE INSURANCE

(A SAUDI JOINT STOCK COMPANY)

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) FOR THE THREE MONTHS PERIOD ENDED MARCH 31, 2025

1. GENERAL (Continued)

The Company for Cooperative Insurance (the “Company”) is a Saudi joint stock Company established in Riyadh, Kingdom of Saudi Arabia by Royal Decree Number M/5 and incorporated on January 18, 1986 corresponding to Jumada Al-Awal 8, 1406H under Commercial Registration No. 1010061695. The Company’s head office is located on Thumamah Road (At Takhassusi) ArRabi District, P.O. Box 86959, Riyadh 11632, Kingdom of Saudi Arabia.

The purpose of the Company is to transact cooperative insurance operations and all related activities including reinsurance and agency activities. Its principal lines of business include medical, motor, marine, fire, engineering, energy, aviation, takaful and property and casualty insurance.

On July 31, 2003, corresponding to Jumada Thani 2, 1424H the Law on the Supervision of Cooperative Insurance Companies (“Insurance Law”) was promulgated by Royal Decree Number (M/32). On December 1, 2004 corresponding to Shawwal 18, 1425H, the Insurance Authority (formerly Saudi Central Bank “SAMA”) as the principal authority responsible for the application and administration of the Insurance Law and its implementing regulations, granted the Company a license to transact insurance activities in Saudi Arabia. During the year ended December 31, 2023, the Insurance Authority has been established by a royal decree as the insurance regulator. Previously issued regulations by SAMA will be upheld until the Insurance Authority issued updated regulations.

The Company conducts the business and advances funds to the insurance operations as required. On January 20, 2004 the Company amended its Articles of Association giving authority to the Board of Directors to determine the disposition of the surplus from insurance operations. On March 20, 2004, the Board of Directors approved the distribution of the surplus from insurance operations in accordance with the Implementing Regulations issued by Insurance Authority, whereby the shareholders of the Company are to receive 90% of the annual surplus from insurance operations and the policyholders are to receive the remaining 10%. Any deficit arising on insurance operations is transferred to the shareholders’ operations in full.

The Company has the following subsidiaries and associates.

These interim condensed consolidated financial statements comprise the Company and its subsidiaries (together referred to as the 'Group').

2. BASIS OF PREPARATION

2.1 Statement of compliance

The interim condensed consolidated financial statements of the Group as at and for the period ended March 31, 2025 have been prepared in accordance with International Accounting Standard 34 - "Interim Financial Reporting" ("IAS 34") that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by the Saudi Organization for Chartered and Professional Accountants ("SOCPA") and in compliance with Regulations for Companies in the Kingdom of Saudi Arabia and By-Laws of the Company.

The Group's interim condensed consolidated statement of financial position is not presented using a current / non-current classification. However, the following balances would generally be classified as non-current: statutory deposit, accrued income on statutory deposit, Property, equipment and right-of-use assets, net, intangible assets, investment properties, investments in equity accounted investments, return payable on statutory deposit, defined benefits obligation and those balances of insurance contracts liabilities and reinsurance contract assets that would not settle within next twelve months. All other financial statement line items would generally be classified as current.

The Group presents its interim condensed consolidated statement of financial position in order of liquidity (starting from most liquid).

2.2 Basis of measurement

These interim condensed consolidated financial statements are prepared under the historical cost convention, except for the measurement of investments carried at fair value through profit or loss (FVPL) and investments carried at fair value through other comprehensive income (FVOCI), investment in equity accounted investments which is accounted for under the equity method, defined benefits obligation recorded at the present value using the projected unit credit method and liability of incurred claims (LIC) and assets for incurred claims (AIC) recorded at the present value at the current discount rates.

Functional & presentation currency

These interim condensed consolidated financial statements have been presented in Saudi Arabian Riyals (ﷲ), which is also the functional currency of the Group. All financial information presented in Saudi Arabian Riyal has been rounded to the nearest thousands, except where otherwise indicated.

Fiscal Year

The Group follows a fiscal year ending December 31.

Seasonality of operations

Other than normal seasonality in Medical & Motor Insurance Business in the Kingdom of Saudi Arabia, there are no seasonal changes that may affect insurance operations of the Company.

2.3 Basis of consolidation

The interim condensed consolidated financial statements comprise the financial statements of the Company and its subsidiaries. The financial statements of the subsidiaries are prepared for the same reporting year as that of the Company, using consistent accounting policies.

(continued)

FOR THE THREE MONTHS PERIOD ENDED MARCH 31, 2025

2. BASIS OF PREPARATION (continued)

2.3 Basis of consolidation (continued)

Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if, and only if, the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee, and;
- The Group's voting rights and potential voting rights.

The financial statements of subsidiaries are included in the interim condensed consolidated financial statements of the Group from the date of acquisition or incorporation, being the date on which the Group obtains control, and continue to be consolidated until the date when such control ceases. The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement(s) with the other vote holders of the investee;
- Rights arising from other contractual arrangements;
- The Group's voting rights and potential voting rights.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the period are included in the interim condensed consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

Non-controlling interests (NCI)

NCI are measured at their proportionate share of the acquiree's identifiable net assets at the date of acquisition.

Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any resulting gain or loss is recognised in the consolidated statement of income. Any interest retained in the former subsidiary is measured at fair value when control is lost. A change in ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealized income and expenses and cash flows relating to transactions arising from intra group transactions, are eliminated. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment.

2.4 Critical accounting judgments, estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below. The Company based its assumptions and estimates on parameters available when the interim condensed consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Estimates and judgments are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to estimates are recognised prospectively.

FOR THE THREE MONTHS PERIOD ENDED MARCH 31, 2025

2. BASIS OF PREPARATION (continued)

2.4 Critical accounting judgments, estimates and assumptions (continued)

In preparing these interim condensed consolidated financial statements, the significant judgement made by the management in applying the Group's accounting policies and the key sources of estimation uncertainty was the same as those that applies to the consolidated financial statements as of and for the year ended December 31, 2024.

Following are the accounting judgments and estimates that are critical in preparation of these interim condensed consolidated financial statements:

a) PAA eligibility assessment

The Group has calculated a Liability for remaining coverage (LRC) and Asset for remaining coverage (ARC) for those groups of insurance contracts written and reinsurance contracts held respectively where the coverage period was more than one year. The calculation was performed under both simplified approach i.e. Premium Allocation Approach (PAA) and General Measurement Model (GMM). Situations, which may cause the LRC and / or ARC under the PAA to differ from the LRC and / or ARC under the GMM:

- When the expectation of the profitability for the remaining coverage changes at a particular valuation date during the coverage period of a group of contracts;
- If yield curves change significantly from those in place at the group's initial recognition;
- When the incidence of claims occurrence differs from the coverage units; and
- The effect of discounting under the GMM creates an inherent difference; this difference compounds over longer contract durations.

Upon analysis of the possible differences between LRC and / or ARC applying the PAA and GMM approach, respectively, the Group did not note any material difference for contracts with coverage period of more than one year. Hence, it has opted to report all such contracts using the PAA approach maintaining a consistent accounting treatment to the rest of the portfolio of insurance contracts issued and reinsurance contracts held that have a coverage period of up to one year. The Group assesses materiality at each respective group of contracts level (GoCs) and at an aggregate insurance contract liabilities / re-insurance contract assets level using pre-determined quantitative threshold for differences at the GoCs.

During the period, the Group has written individual life policies which are investments and savings products as well as those which covers protection risks (collectively referred as "individual life business"). These are accounted for under PAA as the individual life business is not material to these interim condensed financial statements.

b) Insurance acquisition cash flows

Commissions and other acquisition related expenses are deferred and amortized over the term of the insurance contracts to which these relate, similar to premiums earned. The Group uses a systematic and rational method to allocate such expenses. Insurance acquisition cash flows that are directly attributable to a group of insurance contracts are allocated:

- to that group; and
- to groups that include insurance contracts that are expected to arise from the renewals of the insurance contracts in that group.

c) Expense attribution

The Group identifies expenses which are directly attributable towards acquiring insurance contracts (acquisition costs) and fulfilling / maintaining (other attributable expenses) such contracts and those expenses which are not directly attributable to the aforementioned contracts (non-attributable expenses). Acquisition costs, such as underwriting costs including other expenses except for initial commission paid, are no longer recognized in the consolidated statement of income when incurred and instead spread over the lifetime of the group of contracts based on the passage of time.

Other attributable expenses are allocated to the groups of contracts using an allocation mechanism considering the activity-based costing principles. The Group has determined costs directly identified to the groups of contracts, as well as, costs where a judgement is applied to determine the share of expenses as applicable to that group.

On the other hand, non-directly attributable expenses, overheads and one-off exceptional expenses is recognized in the interim condensed consolidated statement of income immediately when incurred. The proportion of directly attributable and non-attributable costs at inception will change the pattern at which expenses are recognized.

d) Discounting methodology

Insurance contract liabilities and Reinsurance contracts assets are calculated by discounting expected future cash flows at a discount rate that reflects the characteristics of the cash flows and the liquidity characteristics of the insurance contracts. The Group applied a bottom-up approach to derive the applicable yield curve when determining the discount rate, where the curve is based on the European Insurance and Occupational Pensions Authority (EIOPA) volatility adjusted risk-free curve denominated in United States Dollars while applying certain adjustments for factors under IFRS 17.

Discount rates applied for discounting of future cash flows are listed below:

Evaluation date	1 Year	2 Year	3 Year	4 Year	5 Year
31 March 2025	5.29%	5.02%	4.94%	4.93%	4.94%
31 December 2024	5.50%	5.30%	5.28%	5.25%	4.23%
31 March 2024	6.47%	5.90%	5.63%	5.44%	5.33%

e) Risk adjustment methodology, including correlations, and confidence level selected

The risk adjustment for non-financial risk is the compensation that the Group requires for bearing the uncertainty about the amount and timing of the cash flows of groups of insurance contracts. The risk adjustment reflects an amount that an insurer would rationally pay to remove the uncertainty that future cash flows will exceed the expected value of claims.

The Group has estimated the risk adjustment using a confidence level (probability of sufficiency) approach at the 75th percentile. That is, the Group has assessed its indifference to uncertainty for all product lines, as an indication of the compensation that it requires for bearing non-financial risk) as being equivalent to the 75th percentile confidence level less the mean of an estimated probability distribution of the future cash flows.

The Company has appointed a qualified actuary who supports in reviewing and providing recommendation with regards to the expected ultimate claims and the associated claims reserves. The Company booked reserves following the recommendation of the appointed actuary who is currently external and independent from the Company. A range of methods were used by the appointed actuary to determine these claims. From the diverse methods available to estimate the volatility of future cash flows and, thus, the applicable confidence interval for each line of business, the Group relied on the following three methods depending on the nature of each portfolio:

- Mack Model
- Bootstrap – over dispersed Poisson model
- Stochastic Bornhuetter-Ferguson

f) Liability for incurred claims

The estimation of the ultimate liability arising from claims made under insurance contracts is the Company's most critical accounting estimate given the level of subjectivity inherent in estimating the impact of claim events that have occurred and incurred but not reported for which the ultimate outcome remains uncertain. There are several sources of uncertainty that need to be considered in the estimate of the liability that the Company will ultimately pay for such claims. Estimates are made at the end of the reporting period both for the expected ultimate cost of claim reported and for the expected ultimate costs of claims incurred but not reported. Both of these estimates are recorded under the liability for incurred claims ("LIC"). Moreover, the Company includes claims payable and advance payment made to or on behalf of policyholders under LIC.

Events not in data ("ENID") represents an additional amount that needs to be included in the best estimate claim liability to ensure that the best estimate is a true best estimate of all possible outcomes. The methodology used by the Group to derive the ENID is based on Lloyd's Technical Provisions Guidance issued in March 2011, which suggests several approaches to allow for Binary events / Events Not in Data. In this guidance, Lloyd's details an approach that offers uplifting reserve best estimates to allow for a limited range of historical (observable) data. This approach is also called the Truncated Statistical Distribution approach and defines the uplift factor of reserve best estimate as: "the ratio of the 'true mean' to the 'mean only including realistically foreseeable events'". The distribution is adjusted to add to the tail and a new mean is estimated from the new distribution which represents a "true" distribution of claims. The ENID uplift factor applied to the claims is then the ratio of the new mean to the old mean.

Liabilities for unpaid reported claims are estimated using the input of assessments for individual cases reported to the Company. At the end of each reporting period, prior year claims estimates are reassessed for adequacy and changes are made to the provision.

f) Liability for incurred claims (continued)

The Company has appointed a qualified actuary who supports in reviewing and providing recommendation with regards to the expected ultimate claims and the associated claims reserves. The Company booked reserves following the recommendation of the appointed actuary who is currently external and independent from the Company. A range of methods were used by the appointed actuary to determine these claims. A range of methods such as Chain Ladder Method, Bornhuetter-Ferguson Method and Expected Loss Ratio Method are used by the actuaries to determine these provisions. The actuary had also used a segmentation approach including analysing cost per member per year for medical line of business. Underlying these methods are a number of explicit or implicit assumptions relating to the expected settlement amount and settlement patterns of claims.

g) Liability for remaining coverage

i. Significant financing component

The Group has assessed its Liability for Remaining Coverage (LRC) and Assets for remaining coverage (ARC) and concluded that no significant financing component exists within LRC and ARC respectively. Therefore, the Group has not adjusted the carrying amount of the LRC and ARC to reflect the time value of money and the effect of financial risk using the discount rates.

ii. Onerosity determination

The profitability of groups of insurance contracts is assessed by actuarial valuation models that take into consideration existing and new business. Profitability is measured through the expected risk-adjusted combined ratio (including premiums, expenses, discounted risk adjusted claims and an allowance for ENID). The expected risk adjusted combined ratio approximates the fulfilment cash flows as defined in IFRS 17. The Group assumes that no contracts in the portfolio are onerous at initial recognition unless facts and circumstances indicate otherwise. The Group also considers facts and circumstances to identify whether a group of contracts are onerous based on the following key inputs:

- Pricing information: Underwriting combined ratios and price adequacy ratio. This input is most relevant for the Medical insurance portfolio;
- Historical combined ratio of similar and comparable sets of contracts for Motor and P&C portfolios in particular;
- Any relevant inputs from underwriters;
- Other external factors such as inflation and change in market claims experience or change in regulations; and
- For subsequent measurement, the Group also relies on the same group of contracts' weighted actual emerging experience.

The actuarial profitability valuation and results are then discussed with the Profitability Assessment Committee (the "Committee") which is chaired by Group's CFO and includes other relevant stakeholders as members. The objective of the Committee is to formulate management's view of the profitability of new and in-force contracts. The Committee, based on aforementioned inputs, classifies all new contracts into either onerous or profitable and produce the estimated combined loss ratio. For existing contracts, the Committee also produces a view of the combined ratio for such contracts. The expected combined loss ratio is then fed into the loss component calculation.

Any loss-recovery component is determined with reference to the loss component recognised on underlying contracts and the recovery expected on such claims from reinsurance contracts held, if any.

iii. Expected premium receipts adjustment

Insurance revenue will be adjusted with the amounts of expected premium receipts adjustment calculated on premiums not yet collected as at date of the statement of financial position. The computation is performed using IFRS 9 simplified approach to calculate Expected Credit Loss (ECL) allowance. The corresponding impact of this adjustment is recorded to LRC.

h) Non-performance risk

The Group measures the estimates of the present value of future cash flows using assumptions that are consistent with those used to measure the estimates of the present value of future cash flows for the underlying insurance contracts, with an adjustment for any risk of non-performance by the reinsurer. The effect of the non-performance risk of the reinsurer is assessed at each reporting date and the effect of changes in the non-performance risk is recognized under Amounts recoverable from reinsurers for incurred claims in the consolidated statement of income. The computation is performed using IFRS 9 simplified approach to calculate ECL allowance.

2. BASIS OF PREPARATION (continued)

2.4 Critical accounting judgments, estimates and assumptions (continued)

i) Fair value of financial instruments

Fair values of financial instruments are based on quoted prices for marketable securities or estimated fair values. The fair value of commission-bearing items is estimated based on discounted cash flows using commission for items with similar terms and risk characteristics. The fair value of financial instruments where no active market exists or where quoted prices are not otherwise available are determined by using valuation techniques. In these cases the fair values are estimated from observable data in respect of similar financial instruments or using models. Where market observable inputs are not available, they are estimated based on appropriate assumptions. Where valuation techniques (for example, models) are used to determine fair values, they are validated and periodically reviewed. All models are calibrated to ensure that outputs reflect actual data and comparative market prices. To the extent practical, models use only observable data; however, areas such as credit risk (both own credit risk and counterparty risk), volatilities and correlations require management to make estimates. Refer fair value of financial instruments disclosure in note 17.

j) Impairment losses on financial assets

The measurement of impairment losses under IFRS 9 across relevant financial assets requires judgement, in particular, for the estimation of the amount and timing of future cash flows when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by the outcome of modelled Expected Credit Losses ("ECL") scenarios and the relevant inputs used.

k) Sensitivity analysis

The liability for incurred claims is sensitive to the key assumptions in the table below. It has not been possible to quantify the sensitivity of certain assumptions such as legislative changes or uncertainty in the estimation process.

The following sensitivity analysis shows the impact on gross and net liabilities, profit before tax and equity for reasonably possible movements in key assumptions. The correlation of assumptions will have a significant effect in determining the ultimate impacts, but to demonstrate the impact due to changes in each assumption, assumptions have been changed on an individual basis. It should be noted that movements in these assumptions are non-linear.

3. MATERIAL ACCOUNTING POLICIES

The accounting policies used in the preparation of these interim condensed consolidated financial statements are consistent with those used in the preparation of the annual consolidated financial statements for the year ended December 31, 2024.

New IFRS standards, IFRIC interpretations and amendments thereof, adopted by the Group:

<u>Standard, interpretation, amendments</u>	<u>Description</u>	<u>Effective date</u>
Amendments to IAS 21 – Lack of Exchangeability	An entity is impacted by the amendments when it has a transaction or an operation in a foreign currency that is not exchangeable into another currency at a measurement date for a specific purpose. A currency is exchangeable when there is an ability to obtain the other currency (with a normal administrative delay) and the transaction would take place through a market or exchange mechanism that creates enforceable rights and obligations. No material impact is expected for the Group.	Annual periods beginning on or after January 1, 2025 (early adoption is available)

The application of above standards does not have any impact on the interim condensed consolidated financial statements of the Group for the period ended 31 March 2025.

15. ACCOUNTING FOR INSURANCE SHARED POOL ARRANGEMENTS

(i) Hajj and Umrah shared agreement:

On January 01, 2020, the Company, together with 28 other insurance companies, signed the Umrah shared agreement relating to medical and general accidents insurance which was effective from January 01, 2020. Effective from March 30, 2022, the Company had also signed an Appendix "1" to an existing Umrah shared agreement with Ministry of Hajj and Umrah to include Hajj insurance product relating to general accidents insurance including Covid-19 coverage. The agreement relates to insurance of pilgrims who enter the Kingdom of Saudi Arabia.

The main terms of the agreement are as follows:

- The Company obtains 2% management fee of the net result of the Hajj and Umrah portfolio;
- The Company obtains 2.5% of Hajj and Umrah's gross premiums written to cover the related indirect expenses;
- The Company obtains 0.3% of investing portfolio funds;
- The Company pays 7.5% brokerage commission of Hajj and Umrah's gross premiums written through broker;
- The Company pays 10% of Hajj and Umrah's portfolio surplus to Ministry of Hajj and Umrah; and
- The net result of the Hajj and Umrah portfolio after deducting all the above-mentioned items is shared equally by the Company and other insurers.

The agreement ended on December 31, 2023, and thereafter above agreement has not been renewed between the Company and other insurance companies. The current agreement will be continued as run-off portfolio until all premiums are earned and all claims and related reserves are settled.

Effective January 1, 2024, the Company signed an agreement with Ministry of Hajj and Umrah, whereby the Company is responsible solely to provide insurance to foreign pilgrims including Medical & General Accidents benefits for Umrah visa holders and General Accidents benefits for Hajj visa holders. As a result, Medical – Umrah line of business is now presented under Medical line of business and General Accidents – Hajj & Umrah line of business is now presented under Property & Casualty line of business effective from 1 January 2024 (refer note 18).

15. ACCOUNTING FOR INSURANCE SHARED POOL ARRANGEMENTS (continued)

(ii) Travel and COVID-19 shared agreement:

On April 6, 2021, the Company, together with 12 other insurance companies, signed the Travel and COVID-19 shared agreement relating to compulsory travel insurance in addition to coverages related to COVID-19 which is effective from April 6, 2021. The agreement relates to insurance of citizens traveling abroad.

The main terms of the agreement are as follows:

- The Company obtains 2.5% management fee of Travel and COVID-19 gross premiums written; and
- The Company obtains 30% of net result of Travel & COVID-19 portfolio after deducting the above-mentioned item and the remaining is shared equally with other insurers.

Effective from September 1, 2022, in accordance with the announcement of General Directorate of Passports (Jawazat), the Company has ceased to write Travel and COVID-19 insurance policies for the citizens traveling abroad. Consequently, Travel and COVID-19 portfolio will be continued as run-off portfolio until all premiums are earned and all claims and related reserves are settled. The approval of the settlement of remaining assets and liabilities under the shared agreement is in process with relevant regulatory body.

(iii) Inherent Defects Insurance agreement (IDI):

On January 1, 2023, the Company signed the Inherent Defects Insurance (IDI) (the pool) shared agreement relating to compulsory Inherent Defects insurance, mandated by Council of Ministers requiring all contractors involved in private sector construction project to obtain an IDI policy.

The main terms of the agreement are as follows:

- The Company's share of IDI portfolio is 3% of total share;
- The pool is being led by Malath Cooperative Insurance Company on behalf of the participating insurance companies and will exclusively be entitled to management fees of managing the portfolio.

The IDI's insurance and reinsurance results are included within Property and Casualty line of business as disclosed in Note 8.1(d) and 8.2(d).

Effective from June 24, 2025 the pool management will be transferred for a period of three years from "Malath Cooperative Insurance Company" to the Group.

17. FAIR VALUES OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or the most advantageous) market between market participants at the measurement date under current market conditions regardless of whether that price is directly observable or estimated using another valuation technique.

Determination of fair value and fair value hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments:

- Level 1: quoted market price: financial instruments with quoted unadjusted prices for identical instruments in active markets.
- Level 2: quoted prices in active markets for similar assets and liabilities or other valuation techniques for which all significant inputs are based on observable market data.
- Level 3: valuation techniques for which any significant input is not based on observable market data.

The following table shows the carrying amount of financial assets and financial liabilities, including their levels in the fair value hierarchy for financial instruments measured at fair value. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation to fair value.

17. FAIR VALUES OF FINANCIAL INSTRUMENTS (continued)

Reconciliation of recurring fair value measurements categorized within Level 3 of the fair value hierarchy:

The fair value used for valuation of Level 2 investments are based on prices quoted on reliable and third-party sources including Reuters, Bloomberg, etc. Fair value of unquoted equities at FVOCI classified in Level 3 are determined based on the recent transaction price. There were no transfers in between levels during the period / year ended March 31, 2025, and December 31, 2024.

The fair values of cash and cash equivalents, term deposits, receivable from brokers / agents, other assets, accrued income on statutory deposit and statutory deposit in the interim condensed consolidated statement of financial position which are carried at amortised cost, are not significantly different from the carrying values included in the interim condensed consolidated financial statements due to the short-term nature of balances or they are repayable on demand.

The Group measures fair value including fair value gains and losses, realized gains and losses on disposal of investments and impairment on equities at the underlying asset level. However, the Shariah Notes are the basis of the unit of account for recognition as at the statement of financial position date.

THE COMPANY FOR COOPERATIVE INSURANCE

(A SAUDI JOINT STOCK COMPANY)

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (continued) FOR THE THREE MONTHS PERIOD ENDED MARCH 31, 2025

19. CAPITAL MANAGEMENT OBJECTIVES, POLICIES AND APPROACH

The Group has established the following capital management objectives, policies and approach to managing the risks that affect its capital position:

- To maintain the required level of stability of the Group thereby providing a degree of security to policyholders;
- To allocate capital efficiently and support the development of business by ensuring that returns on capital employed meet the requirements of its capital providers and shareholders;
- To retain financial flexibility by maintaining strong liquidity and access to a range of capital markets;
- To align the profile of assets and liabilities, taking account of risks inherent in the business;
- To maintain financial strength to support new business growth and to satisfy the requirements of the policyholders, regulators and stakeholders;
- To maintain strong credit ratings and healthy capital ratios in order to support its business objectives and maximise shareholders value.

The Group manages its capital to ensure that it can continue as a going concern and comply with the regulators' capital requirements of the markets in which the Company operates while maximizing the return to stakeholders through the optimization of the debt and equity balance. The capital structure of the Company consists of equity attributable to shareholders comprising paid share capital, reserves and retained earnings.

As per guidelines laid out by SAMA in Article 66 of the Implementing Regulations of the Cooperative Insurance Companies Control Law detailing the solvency margin required to be maintained, the Company shall maintain solvency margin equivalent to the highest of the following three methods as per SAMA Implementing Regulations:

- a) Minimum Capital Requirement of ﷲ 300 million.
- b) Premium Solvency Margin.
- c) Claims Solvency Margin

Approach to capital management:

The Group seeks to optimise the structure and sources of capital to ensure that it consistently maximises returns to the shareholders.

The Group's approach to managing capital involves managing assets, liabilities, and risks in a coordinated way, assessing shortfalls between reported and required capital levels on a regular basis and taking appropriate actions to influence the capital position of the Company in the light of changes in economic conditions and risk characteristics. An important aspect of the Company's overall capital management process is the setting of target risk adjusted rates of return, which are aligned to performance objectives and ensure that the Company is focused on the creation of value for shareholders. The capital requirements are routinely forecast on a periodic basis and assessed against both the forecast available capital and the expected internal rate of return, including risk and sensitivity analyses. The process is ultimately subject to approval by the Board.

20. CONTINGENCIES AND COMMITMENTS

As at March 31, 2025, the Group was contingently liable for letters of guarantees, issued on its behalf by the banks, amounting to ﷲ 510 million (December 31, 2024: ﷲ 422 million) occurring in the normal course of business.

The Company, in common with other insurers, is subject to litigation in the normal course of its business. Appropriate provisions have been made in relation to pending cases and management believes that finalization of these court cases is not expected to have a material impact on the interim condensed consolidated financial statements.

21. SUBSEQUENT EVENTS

Subsequent to the period end equity markets evidenced a material downturn in prices and as a result, the Group's investments carried at fair value through profit and loss saw a decline of ﷲ 35.5 million representing 2.44% as of the date of signing of these interim condensed consolidated financial statements.

Further the Board of Directors in their meeting dated April 06, 2025, recommended to distribute 15% cash dividend at ﷲ 1.5 per share amounting to ﷲ 225 million. Distribution date will be announced later, once General Assembly approves dividends distribution as per Board's recommendation.

22. APPROVAL OF THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The interim condensed consolidated financial statements have been approved by the Board of Directors on 02 Dhul Qi'dah 1446H, corresponding to 30 April 2025G.
